FROM ACTIVITY TO IMPACT

Curating Educational Evidence for Promotion, Fellowship and Funding Applications

Whether you are preparing for academic promotion, considering an Advance HE Fellowship application, applying for educational funding, or simply seeking to build a stronger teaching portfolio, one common challenge is demonstrating educational impact effectively.

The ANZACA Education Subcommittee invites you to this interactive online workshop that will explore practical strategies for identifying, collecting, and curating evidence of educational impact. Participants will learn how to move beyond documenting activities and develop compelling evidence-based narratives that demonstrate influence on learners, colleagues, programs, institutions, and the wider discipline.

We will answer some frequently asked questions, like

- What counts as educational impact?
- What are good sources of evidence beyond student evaluations
- How to build an educational impact portfolio
- How to prepare evidence for promotion applications
- How to prepare evidence for Advance HE Fellowship applications
- How to demonstrate educational track record for funding applications
- What are common pitfalls and practical solutions

A/Prof Krisztina Valter

Associate Professor Krisztina Valter is Chair of Medical Science, academic lead of Anatomy and Convenor of the Bachelor of Health Science Program in the School of Medicine and Psychology at the Australian National University. She holds a medical degree (MD) from Hungary, a PhD from the University of Sydney, a Graduate Certificate in Higher Education (ANU), and is a Senior Fellow of the Higher Education Academy. She was the inaugural member of the ANU Educational Fellowship Scheme committee and has sustained involvement in this scheme for the past 12 years. She has advised and mentored numerous colleagues during their application for HEA fellowship. She assessed close to 50 applications from universities across Australia and New Zealand. She brings extensive experience in biomedical research, health professions education, curriculum development and educational leadership. Dr Valter has a long-standing track record of research leadership, interdisciplinary collaboration and innovation in teaching and learning. She is actively engaged in health professions education research and educational innovation, including projects exploring technology, AI and new paradigms in health professional education.
Her educational interests include curriculum design, student engagement, technology-enhanced learning and the integration of innovative pedagogical approaches into medical and health education. Dr Valter is a recipient of several educational awards, including the Australian Award for University Teaching.

AGENDA

13:00 – 13:05 AEDT	**Introduction**
13:05 – 14:35	**Presentation and small group activities:** Led by A/Prof Krisztina Valter
14:35 – 15:00	Panel Discussion with questions from the audience Members of the ANZACA Education Subcommittee Free time to catch up, network and discuss the topics of the day

November

23

2026

TIME

13:00 – 15:00 AEDT

MORE INFORMATION

Our ANZACA online PDEs will be held regularly throughout the year. We encourage you to expand your knowledge on the latest anatomy research and network with colleagues and guest presenters.

We are always looking to feature presenters and topics of interest to our community. If you would like to share your work, or if there is a theme you would like ANZACA to run a session on, please let us know.
